How about your choice

on everything?

Depend on what, then your choice could be succeeded in each time.
Can this ability extend to next generation of your life choice?
For example: your marriage and business partner...

• President:

Mr. Pang Ching Huang, president of Joker Industrial Co., Ltd., was born on the 15th of January, 1957 in Taiwan. He graduated from the Taiwan Institute Of Technology and mainly majored in molding and tooling R&D fields.

Dear Sirs:

Herein we are glad to introduce our new catalogue to you.

We wish that our wide range of products can meet your requirements.

For the past decade, every order is a confirmation and encouragement to our career.

We have been a good cooperater of world famous manufacturers for many years. Furthermore, we are ready to act as your partner to develop new products. We have different packing system to meet your different demands. Looking forward to receiving further more comments from you to boost business relation between you and JOKER.

• History of Joker Co., Ltd.:

In 1984, Mr. PangChing Huang established 340 Enterprise Co., Ltd. in Changhua, Taiwan, which was a professional factory for producing anchors and hardware OEM. After four years in business, the company was renamed as “Joker Industrial Company Limited” and now specializes in building anchors. Through the years, our market has expanded and reached Germany, France, Britain, U.S.A., and Japan. Now Joker is one of the main manufacturers for building anchors in Taiwan. We welcome customers’ samples and we can develop it for you.

• Scope of business:

Main export countries: Germany, France, Britain, USA, and Japan.

Yours truly
Pang Ching Huang

FACTORY AREA / Taiwan area: 20,000 square meters
Shanghai area: 15,000 square meters

Hollow Wall Anchor

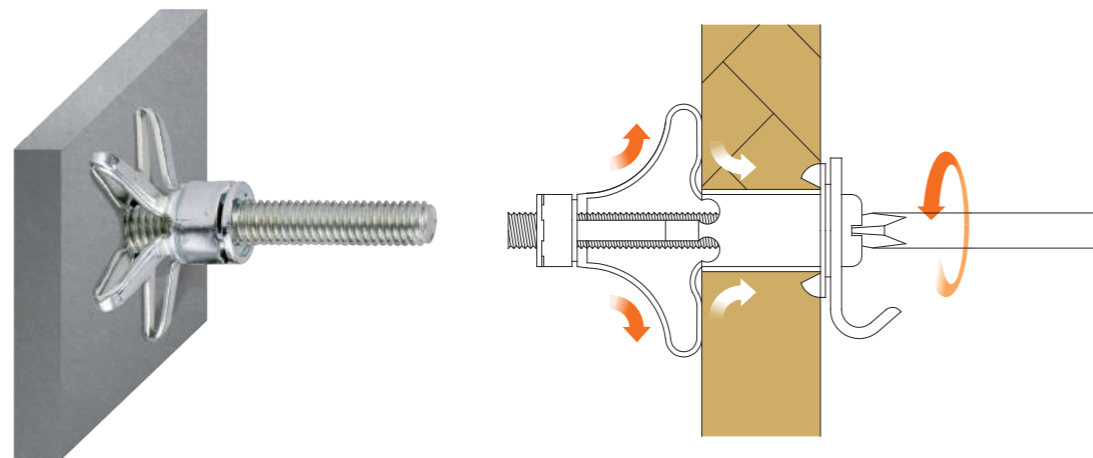

Wuga Type

Strength distribute stably

Conventional

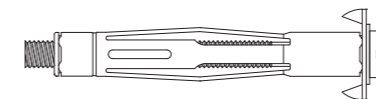

Hollow Wall Anchor Wuga Type

Feature:

- Three sections overlapping.
- Generates a bracing support of multiple sections.
- Prevent construction defect and damage of wall.
- To maximize load capacity.
- Anchor is still workable even though the ribs are dented.

•World newest fastener

SHK > Installation technology
Electro > Assembly, fire proof
Metal > Fixation of crash barriers
Wood > Add additional installations
Applications for all target customers !

•Unlimited application possibilities

•SISSY Know How safe guarding

PCT Patent-applied
EU, USA, CDA, JP, CN, SWISS, etc.

SISSY ANCHOR

•For all solid base materials

•Beton

•Holz

•Ziegel

•Fastening without tension force

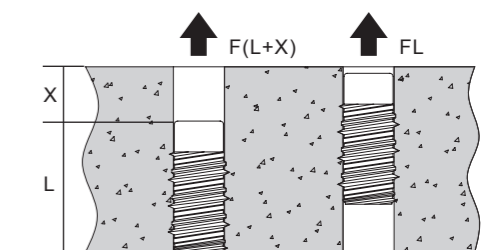

short distances anchor to anchor and anchor to edge

• Safety fastening in tension zones

Undercut-Technology

• Pull out load increase setting depth Setting in a go-through hole

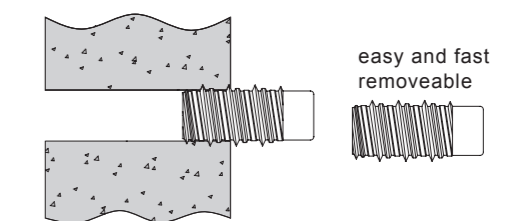

•Flexibility in thread length

Go through thread (important for Quick-Lock)

• Easy thread finding hexagon guiding

• Interim's applications

• Approvals (ETA, IfBt, ICBO)

1. Tension zone (under cut technology)
2. Pressure zone
3. Fire proof (alternativ plastic anchors)

• Simple – and fast application (no special tools needed)
