

**M-TECH TOKYO****02/26-28** Makuhari Messe, Japan**Fastener World at: Hall 4, 23-62**

Mechanical Components & Materials Technology Expo [M-Tech] is an exhibition gathering all kinds of mechanical parts such as bearings, fasteners, mechanical springs, metal and plastic processing technology. M-Tech attracts a significant number of professionals every year from design, development, manufacturing, production engineering, purchasing and quality control departments, to conduct lively business discussions with exhibitors. The 2020 show is expected to bring together 2,300 exhibitors and 80,000 professional visitors!

# Fastener World's Global Exhibition Calendar in the 1st Half of 2020

*compiled by Fastener World***FASTENER FAIR TURKEY****02/27-29** Tuyap Exhibition Center**Fastener World at: 574**

Driven by a positive market outlook, over 160 exhibitors from 9 countries, namely Turkey, France, Germany, Italy, Iran, China, S. Korea, Taiwan and USA have already booked their stands at Fastener Fair Turkey 2020 and limited space is still available. The fifth edition of the international fair takes place from 27 - 29 February 2020, in hall 12 at the Tuyap Exhibition Centre in Istanbul, providing a great networking opportunity for buyers and sellers within the industry.

Fastener Fair Turkey 2020 comes at a time, when buyers are looking to increase their purchases to meet rising demand. With such a wide range of exhibitors, this unique fair attracts trade visitors from the automotive, agricultural, hardware, construction and civil engineering sectors, all being major users of fasteners. As many as 2,900 visitors from 48 countries were seen at the 2018 edition and these numbers are expected to rise in 2020.

**INTERNATIONAL HARDWARE FAIR COLOGNE****03/01-04** Koelnmesse, Fair Grounds, Köln-Deutz**Fastener World at: P007, Passage 3-11**

Applications have been received from 49 countries, with 70 percent of the exhibitors coming from abroad – and more are expected. New concepts will also be featured: In addition to the further developed DIY Boulevard, eCommerce and Start-Up formats, changes have also been made to the space allocation. In order to further promote the growth of EISENWARENMESSE - International Hardware Fair Cologne, Hall 11 has now been added to the fair.

Interest from foreign companies has also been high during the initial registration phase. Along with the usual strong representation from Asia, the US, Spain and the Netherlands will especially be present. This first result

**Wujin Luoyang Yaoshengda Hardware Products Factory**

**Manufacturers of various of cold heading moulds, punches and accessories**

underscores the international significance of the EISENWARENMESSE - International Hardware Fair Cologne as a network and business platform for the hardware industry.

In order to promote the growth of the trade fair, Hall 11 with a total area of more than 31,000 square metres will also be used for EISENWARENMESSE – International Hardware Fair Cologne 2020. This means more space for even more hardware concepts and clearer clustering by segment on the entire exhibition area. In the new Hall 11.1, DIY exhibitors will present themselves around the DIY Boulevard (formerly Hall 5.1) and exhibitors in the field of fastener and fixing technology sector and tool suppliers will be on level 11.2. This way, existing exhibitors can also be given the chance of having their request for larger stands met. The central event stage of the EISENForum will also move to Hall 11.

## M-TECH NAGOYA

04/15-17 Portmesse Nagoya

M-Tech Nagoya 2020 is Asia's leading exhibition gathering all kinds of mechanical components and processing technologies. It is held in the middle of Japan's Manufacturing Cluster-Nagoya. Nagoya is also the area with the largest number of factories in Japan. Heavy industries such as aviation, automobile and machine tools are also flourishing here. Many world-famous Japanese enterprise headquarters are also set up here.

You can see many "Made in Japan" precision products and processing technologies at "M-Tech Nagoya" that cannot be seen elsewhere. One eyewitness is better than hundred hearsays! Come and feel the Manufacturing industry's forefront.

## FASTENER FAIR FRANCE

05/27-28 Paris Expo-Porte de Versailles venue (Pavilion 3.2)

**Fastener World at: 728**

The outcome of the first edition of France's only international exhibition dedicated exclusively to fastener and fixing technologies was more than convincing. Over the course of two days, 161 exhibitors from 15 countries – 53% of them from outside France – and some 1,500 visitors were provided with a unique opportunity to discover the latest developments in the sector, attend conferences and follow up on pre-scheduled appointments. And many of the exhibitors have already signed up for the second edition in 2020.

The majority of visitors were company managers (33%), heads of departments (21%), buyers (16%) and engineers (11%) from across a wide range of sectors, including automotive, distribution, aerospace, mechanical engineering, hardware/DIY, agricultural machinery and maintenance/repairs. A significant proportion of them worked for distributors serving the end-user market (31%) and wholesalers serving the reseller market (17%). FASTENER FAIR FRANCE brings together manufacturers, distributors, suppliers and end users of fastening and fixing systems. The exhibition is aimed primarily at industrial stakeholders that require assembly and installation systems, fastener-manufacturing technologies, and logistics and storage equipment.

The next edition will be staged against the backdrop of a global market marked by the emergence and development of Industry 4.0, a greater awareness of environmental issues, and the need to "rebrand" the image of a sector that needs to fill new vacancies. More concretely, given the sectors of industry that it serves, the French fastener market is currently thriving. In a recent survey conducted by the U.S. market research company, Freedonia, it was estimated that the demand for industrial fasteners in France would increase by 3% by 2020, and generate more than 2.4 billion dollars in total revenue. ■
