

Fastener Fair Mexico

to Bring New Fastener Technologies for

Latin America's Top Industry Manufacturers

Fasteners are used in a broad range of applications including automotive, machinery, electrical & electronics, material handling equipment, fabricated metal products, aerospace and defense equipment. Increasing fastener demand for automotive parts- including engine, body, molding, suspension system, frame, body assembly and wheels is expected to drive market growth.

Externally threaded fasteners are expected to see significant demand due to the increased use by automotive OEMs, machinery OEMs, aerospace and construction applications where high strength is required. Aerospace grade fasteners are expected to be the fastest growing product segment within the forecast period as the aviation sector continues to expand.

“We had a great experience bringing Fastener Fair to Guadalajara. For 2019 we are coming back to Mexico City to consolidate the event. We want to connect key buyers from fast growing industries in Mexico, such as construction, automotive, aerospace and electrical, with suppliers of new industrial fastening and fixing technologies from all over the world,” said Melissa Magestro, Executive VP of Mack Brooks Exhibitions Inc., organizer of the event. “We are working on an event that will provide real value to over 2000 industrial fastener buyers, engineers and distributors from Mexico and Latin America. For exhibiting companies, Fastener Fair is the best way to connect and do business with fastener buyers and distributors in the region.”

Fastener Fair Mexico 2018 was attended by over 1,600 decision-makers from manufacturing industries based in Mexico, such as automotive, aerospace, construction, mechanical, and consumer electronics along with fastener distributors and wholesalers.

Steady growth is projected in the next seven years for the fastener and fixing industry and Fastener Fair Mexico is committed to serving the Latin American market by bringing together a wide array of global suppliers to satisfy the demand for fastener solutions in the region. Fastener Fair Mexico 2019 will be held June 19-20 at WTC Mexico City.

FASTENER WORLD INC.
Booth no.813
T 886-6-2954000

Fastener World Inc. is an international media that provides the global industries with professional marketing packages, which include printed publications, e-platform, exhibitions and real-time market intelligence. It publishes several series of magazines for fasteners, hardware and industrial components and is also the exclusive sales agent in Taiwan of many int'l industrial exhibitions. Its versatile marketing approaches help companies increase their brand awareness quickly.

Booth no.812 / CHIREK FASTENER CORP. www.chirek.com.tw

T: 886-4-25668328 F: 886-4-25668353 E: sales@chirek.com.tw

Chirek Fastener Corporation was established in 1991. We have over 25 years of experience in international and domestic sales of construction fasteners. We specialize in bi-metal self-drilling screws, anti-corrosion self-drilling coating screws, heavy structural bolts, stainless steel bolts, hex socket cap screws, anchors, nuts and washers. Not only can we provide standard products such as ASTM, JIS and DIN but also can offer customized products according to our clients' design. With a 5000 m³ warehouse here in Kaohsiung, Taiwan, Chirek has more than 2000 tons of heavy structural bolts, bi-metal self-drilling screws, stainless steel bolts, hex socket cap screws, nuts and washers in stock. Due to the huge stock of available products, our lead time is short. Moreover, we are willing to accept small volume of orders.

Booth no.814 / JERN YAO ENTERPRISES CO., LTD. www.jernyao.com

T: 886-6-2700011 F: 886-6-2700055 E: sales@jernyao.com CE, ISO9001, ISO9001

Formed in 1993, products include Bolt Formers, Nut Formers and Special Parts Formers. Building over 200 machines a year, we have sold over 4,300 sets of machines thus far. Over 250 different varieties of forging machines. ISO9002 and ISO9001:2000 registered; CE certified. Continuously enhancing more user-friendly accessories such as: Transfer housing lift & turn system, Punch & die quick change over system, dial control style slow jog system, linear feed system, finger open/close cam automatically adjustment, modified cut-off system for smoother cut-off surfaces.

Booth no.815 / HOME SOON ENTERPRISE CO., LTD. www.homesoon.com.tw

T: 886-4-23353817 F: 886-4-23353609 E: home.soon@msa.hinet.net ISO9002

Offering Fastener Driving Tools and Accessories with 37 years of know-how, Home Soon is a professional manufacturer and also a reliable supplier. Our selection of products include driver bits, bit holders, nut setters, sockets, wrenches and a variety of hand tools satisfying customers in automotive and construction related industries. OEM is welcome.

Booth no.816 / ONY CO., LTD. ony.tw

T: 886-6-2676086 F: 886-6-2676089 E: young@ony.tw

ONY Co., Ltd. provides turnkey fasteners manufacturing machines. All the machines consist of decent quality with affordable cost. The philosophy of ONY is to provide the most reliable machines to maximise the finest quality products.

Please refer to the list for our mainstream machiners:

Wire annealing furnace, wire phosphating line, wire drawing machine, cold forging bolt, nut and special parts forming machine, special purpose 2nd operation machine, thread rolling machine/nut tapping machine, continuous heat treatment furnace, electro plating machine, packing machine, any kind of special purpose machines, general cold forge tooling and spare parts.

Booth no.818 / UNI-PROTECH INDUSTRIAL CO., LTD. www.uni-protech.com.tw

T: 886-6-2977107 F: 886-6-2977109 E: up@mail.uni-protech.com.tw ISO/IEC 17025, ISO9001, TAF

World-class manufacturer of automotive fasteners and customized parts.

Strong designing ability to provide highly reliable products.

Well-organized policies in engineering, testing, sorting & logistics.

Various products sourcing from Taiwan & China.

Building a customer-oriented and long term relationship all over the world.

Respect, Trust and Honest are our company spirit.

Booth no.819 / SHYANG SHENG PRECISE INDUSTRY CO., LTD. www.splasticinjectionmold.com

T: 886-8-7801044 F: 886-8-7801034 E: shyang.her@msa.hinet.net ISO9000:2008

Shyang Sheng is a custom plastic injection mould, plastic fastener manufacturer. It supplies any OEM plastic fastener service in Taiwan. Shyang Sheng supplies custom plastic injection moulds suitable for any kinds of customers if you have the demand for OEM plastic injection mould, please contact us.

Booth no.820 / KING YUAN DAR METAL ENTERPRISE CO., LTD. www.fastener-world.com.tw/kyd

T: 886-4-7588101 F: 886-4-7586310 E: pdaiboo@kydmetal.com

Three-dimensional vibration grinding machine-4P, heat treatment furnace.

Booth no.821 / KO YING HARDWARE INDUSTRY CO., LTD. www.ko-ying.com.tw

T: 886-7-6214655 F: 886-7-6226316 E: koying@koying.com.tw ISO9001

Ko Ying Hardware Industry Co., was established in 1997. Ko Ying designs and researches fasteners from the customer's drawings or sample to meet our customers' needs. We are a customer-oriented company. It is our policy to produce products that satisfy our customers' expectations. In order to develop advanced technology and provide the best quality for our customers, we have R(research) & D(develop) department. Now we already passed ISO:9001 2008. Ko Ying supplies high quality and customized fasteners. Ko Ying is your best partner in creating customer value.
