compiled by Fastener World

FASTENER FAIR TURKEY

2/27-29, 2020 Tuyap Exhibition Center

Driven by a positive market outlook, over 160 exhibitors from 9 countries, namely Turkey, France, Germany, Italy, Iran, China, S. Korea, Taiwan and USA have already booked their stands at Fastener Fair Turkey 2020 and limited space is still available. The fifth edition of the international fair takes place from 27 - 29 February 2020, in hall 12 at the Tuyap Exhibition Centre in Istanbul, providing a great networking opportunity for buyers and sellers within the industry.

Fastener Fair Turkey 2020 comes at a time, when buyers are looking to increase their purchases to meet rising demand. With such a wide range of exhibitors, this unique fair attracts trade visitors from the automotive, agricultural, hardware, construction and civil engineering sectors, all being major users of fasteners. As many as 2,900 visitors from 48 countries were seen at the 2018 edition and these numbers are expected to rise in 2020.

777 CHUM YUAN CO., LTD. sales@chumyuan.com.tw www.chumyuan.com 886-2-26971398

Chum Yuan Co., Ltd is a service oriented company with 40 years of experience in providing Industrial Machine, Forming Tools, and related products. Our clients are distributed over the five continents. With over 400 suppliers, CYC will continue to improve and gain resources to meet customers' needs. This year we are proud to introduce the first-ever High-Speed Bolt Pointer HC-P14 to the market. This machine is capable of conducting Pointing, Chamfering, and Drilling operation in the Bolt Point. The speed of this machine can reach up to 150 pieces per minute, with operation range of Ø3mm~15mm in Diameter, and 12mm~150mm in Length.

774 COS PRECISION TOOL CO., LTD.

info.cos@msa.hinet.net www.cos-tool.tw 886-6-3557988

COS Precision Co., Ltd. is an ISO-9001 certified company and specialized in producing carbide and alloy molds for more than 20 years in Taiwan. With our production capability, the experience in the long-term cooperation with our global clients and the strict quality control, we are confident to offer the total solution for your tooling needs. The business philosophy of COS Precision Co., Ltd is to offer our customers the reliable quality, comprehensive services and continuous innovation in technology.

876 HSIUNG JEN INDUSTRIAL CO., LTD.

sa01@hsiungjen.com www.hsiungjen.com 886-5-2377768
Hsiung Jen is IATF 16949 and ISO 9001 certificated. We are specialized in automotive fasteners, such as Metal Clips, U-Nuts, Expansion Nut Clips, Spring Nuts, Brackets, Nut Plates, Hose Clamps, High Tension Clamps, ...etc.

All processes are in-house, from tooling design/build, stamping/forming, austempering, zinc flake coating, optical sorting. Free of charge for PPAP Level 3 documents and IMDS.

882 LU-YI DIE WORKS CO., LTD.

n7350717@ms77.hinet.net
www.lu-yi.com 886-4-7350717

Lu-Yi is specialized in manufacturing all sizes of drill point dies made of tungsten steel and high speed steel and the types include Pinch Point, Center Point, Bullet Shape Point, Nail Shape Point and Wing Point. Lu-Yi can also offer die customization service for any screw dimension requested by any client. Lu-Yi, the best solution for all kinds of point shapes for self-drilling screws. We always stick to the spirit of "satisfying each client's demand". For being a top-level drill point dies manufacturer, in 2018 Lu-Yi gained the ISO9001 Quality System Certificate which is also the first manufacturer specialized in drill point dies to be certified by ISO 9001. All of our pursuit is to satisfy every client's demands.

M-TECH TOKYO

2/26-28, 2020

Makuhari Messe, Japan

Mechanical Components & Materials Technology Expo [M-Tech] is an exhibition gathering all kinds of mechanical parts such as bearings, fasteners, mechanical springs, metal and plastic processing technology. M-Tech attracts a significant number of professionals every year from design, development, manufacturing, production engineering, purchasing and quality control departments, to conduct lively business discussions with exhibitors. 2020 show is expected to bring together 2,300 exhibitors and 80,000 professional visitors!

SPS-INDUSTRIAL AUTOMATION FAIR GUANGZHOU

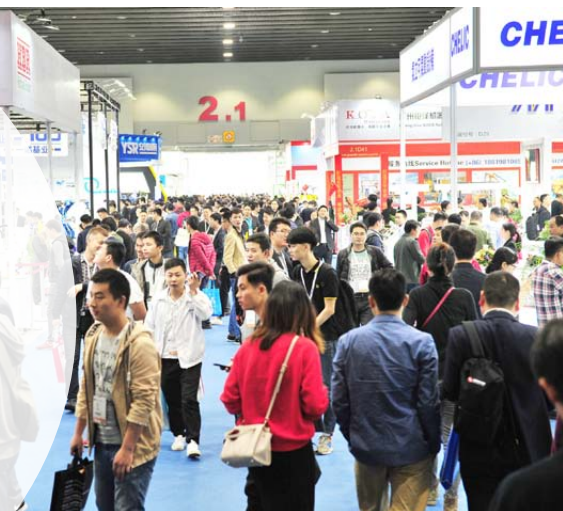

2/26-28, 2020

China Imports and Export Complex

SPS – Industrial Automation Fair Guangzhou (SIAF) 2020 is gearing up for the next edition of the show as some of the latest industrial automation solutions are due to be showcased during the fair. As technologies relentlessly evolve, solutions providers are eager to exhibit their innovations that can streamline the manufacturing process. To accommodate the current smart manufacturing era, the 2020 edition will expand to Hall 8.1 to welcome more industrial internet, industrial cloud platforms, intralogistics and smart factory solution providers. With the expanded area and enhanced fringe programme, the fair is estimated to occupy over 50,000 sqm of exhibition space.

Powered by the highly-respected SPS Smart Production Solutions trade fair in Nuremberg, Germany, SIAF has steadily grown into one of the most reputable trade fairs for the automation industry in South China. Backed by steadfast support from industry professionals, SIAF will continue to showcase state-of-the-art industrial automation solutions revolving around six themes. While the fair as a whole is destined to welcome 800 exhibitors across six halls, Hall 2.1 will feature industrial robotic technologies and accessories, pneumatic systems and components. Halls 3.1 and 4.1 will house advanced control technologies, industrial connectors, drive systems and components while sensors and applications of machine vision will be displayed in Hall 5.1.

With the advancements of intelligent machines, a secure and high-speed network is needed to connect machines and advanced analytics with people that operate them to deliver valuable data and insights. To highlight the importance of the aforementioned technology, two noteworthy conference topics titled “Application of Connectivity, Sensor and Machine Vision Technology Within the Industry 4.0 Era” and “Time-Sensitive Networking (TSN) and its Application on IIoT” will cast spotlights on the latest findings in the industrial internet and connectivity sectors. Expert speakers from renowned companies will offer invaluable business intelligence with a key focus on Industry 4.0. For more information about the 2020 show, please visit www.spsinchina.com

INTERNATIONAL HARDWARE FAIR COLOGNE

3/01-04, 2020

Koelnmesse, Fair Grounds, Köln-Deutz

Fastener World at Passage 3-11, P-007

Applications have been received from 49 countries, with 70 percent of the exhibitors coming from abroad – and more are expected. New concepts will also be featured: In addition to the further developed DIY Boulevard, eCommerce and Start-Up formats, changes have also been made to the space allocation. In order to further promote the growth of EISENWARENMESSE - International Hardware Fair Cologne, Hall 11 has now been added to the fair.

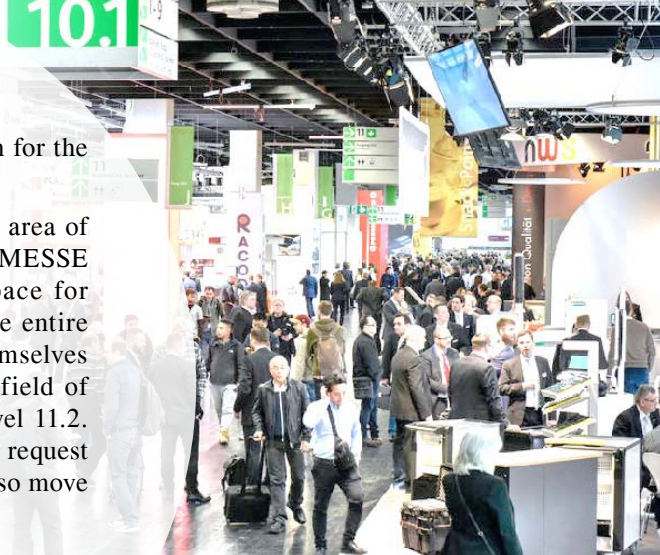

Interest from foreign companies has also been high during the initial registration phase. Along with the usual strong representation from Asia, the U.S., Spain and the Netherlands will especially be present. This first result underscores the international significance of the EISENWARENMESSE -

Exhibition

International Hardware Fair Cologne as a network and business platform for the hardware industry.

In order to promote the growth of the trade fair, Hall 11 with a total area of more than 31,000 square metres will also be used for EISENWARENMESSE – International Hardware Fair Cologne 2020. This means more space for even more hardware concepts and clearer clustering by segment on the entire exhibition area. In the new Hall 11.1, DIY exhibitors will present themselves around the DIY Boulevard (formerly Hall 5.1) and exhibitors in the field of fastener and fixing technology sector and tool suppliers will be on level 11.2. This way, existing exhibitors can also be given the chance of having their request for larger stands met. The central event stage of the EISENForum will also move to Hall 11.

AUTOMECHANIKA HO CHI MINH CITY

3/05-07, 2020 The Saigon Exhibition and Convention Center (SECC)

Steering into its fourth edition, Automechanika Ho Chi Minh City (AMHCMC) will rally a comprehensive automotive supply chain community for the OE (original equipment) and aftermarket by introducing the new automotive manufacturing & automation segment. The community will help drive the Vietnam automotive industry towards localisation, industrialisation and modernisation by promoting made-in-Vietnam brands. 390 international and domestic exhibitors will gather across 10,200 sqm of the exhibition floor at the Saigon Exhibition and Convention Center (SECC).

Automechanika Ho Chi Minh City 2020 will play a leading role in rallying international and domestic cooperation among carmakers, dealers, distributors, exporters, importers, manufacturers, OEMs, retailers and more. In the effort to drive Vietnam's status as an important manufacturing hub, the show will offer comprehensive product coverage of the entire supply chain from materials tools, precision tools and testing machines, product finishing, robotics and automation, to parts and components for vehicles.

Once again, there will be 10 different product groups for the passenger, commercial vehicle and motorcycle segments on display at the fair. These include Accessories & Customising, Parts & Components, Electronics & Connectivity, Diagnostics & Maintenance and Alternative Drive Systems & Fuel to name a few. In addition, there will be six product groups tailored for the new automotive manufacturing & automation segment like Manufacturing of Automotive Parts & Components, Automation, Automotive Production Equipment and System, Automotive Inspection and Quality Control, Automotive Design and R&D and Automotive Material. For further information about the show, please visit www.automechanika-hcmc.com

GUANGZHOU INTERNATIONAL FASTENER EXPO

4/13-15, 2020 Pazhou International Sourcing Centre, Guangzhou, China

To meet the huge market demand of fasteners, Guangzhou Zhongqi Exhibitions Company will cooperate with authoritative institutions of the industry to hold "The 2nd China Guangzhou International fastener Expo 2020" (CIFE 2020) under the leadership of competent departments at all levels. We will fully take geographic advantages to assist enterprises to expand export channels efficiently on one hand, and focus on huge domestic market with billions of demands on the other hand, thus driving the expansion of export and domestic demand. In addition, we will provide all Chinese and foreign exhibitors with an international trade platform where you can expand business, perform technical exchange, show your strength, obtain information, develop relations with customs, popularize products and seek cooperative partners by virtue of our unique creativity; Moreover, we will also provide more cooperation opportunities for global fastener industry, and effectively promote Chinese fastener products to comprehensively enter global procurement system so as to cooperate with the fastener industry of all countries all over the world, thus achieving all-win result and joint development.

※ TARGET AUDIENCE:

Machinery industry, automobile industry, motorcycle industry, construction industry, electronics and hardware industry, rail transportation, aerospace, military industry, shipbuilding, wind and electricity industry, petrochemical, instrument, professional trade, measurement and control, etc.

INAFASSTENER

3/18-20, 2020

Jakarta International Expo (JIEXPO) Kemayoran

INAFASSTENER is part of the INAPA show of targeted trade exhibition for the fastener and fixing industry. Both buyers and sellers can take this opportunity to network the potential buyers, learn and source new technology, grow together with the industry and reach new heights in business status. The exhibition will be held together with INAPA, INABIKE, TYRE & RUBBER INDONESIA and EV INDONESIA and becomes more prospect, more quality and bigger scale.

Highlights:

- Over 250 exhibitors from 25 countries
- The show will feature the latest design and technology of fasteners, fixing technology, assembly and installation systems,
- Exclusive seminars by the Associations, Buyer Procurement Presentations and Technical Seminars
- The new innovation & solution for fastener and fixing technology.
- Business matchmaking – the opportunity for the exhibitors to meet the target.

TAIWAN INTERNATIONAL FASTENER SHOW

4/21-23, 2020 Kaohsiung Exhibition Center

Fastener World at N1307a

The scale of the world's third largest and Asia's second largest Taiwan International Fastener Show 2020 has reached a new high. Currently, more than 420 manufacturers will use nearly 1,200 booths. In addition to extending the exhibition area to the conference rooms and corridors on the third floor, an outdoor exhibition area has been planned for the first time. Various fasteners, screws, nuts, production equipment, fastener tools, molds, testing equipment and wire-related products and services will be exhibited. Interested vendors are welcome to visit and register in advance.

The last exhibition attracted 2,193 international buyers from 73 countries, which is 10% higher than the previous exhibition. The number of domestic and foreign visitors exceeded 30,000. In 2020, fastener companies from Germany, Belgium, Spain, Singapore and Hong Kong registered for the exhibition. The degree of internationalization will increase.

In addition to the exchanges during the exhibition, the Global Fastener Summit is also an important platform for exchange between attendees. This year will focus on the development and innovation of fastener products, explore the application of fasteners in the automotive, aerospace, and medical industries, and invite global industry leaders to come to Taiwan to promote the industry. Furthermore, during the exhibition, one-on-one procurement meetings and overseas talent matchmaking meetings will be held to strengthen cooperation opportunities and become more competitive globally.

FASTENER FAIR FRANCE

5/27-28, 2020 Paris Expo-Porte de Versailles venue (Pavilion 3.2)

Fastener World at 728

The outcome of the first edition of France's only international exhibition dedicated exclusively to fastener and fixing technologies was more than convincing. Over the course of two days, 161

exhibitors from 15 countries – 53% of them from outside France – and some 1,500 visitors were provided with a unique opportunity to discover the latest developments in the sector, attend conferences and follow up on pre-scheduled appointments. And many of the exhibitors have already signed up for the second edition in 2020.

The majority of visitors were company managers (33%), heads of departments (21%), buyers (16%) and engineers (11%) from across a wide range of sectors, including automotive, distribution, aerospace, mechanical engineering, hardware/DIY, agricultural machinery and maintenance/repairs. A significant proportion of them worked for distributors serving the end-user market (31%) and wholesalers serving the reseller market (17%). FASTENER FAIR FRANCE brings together manufacturers, distributors, suppliers and end users of fastening and fixing systems. The exhibition is aimed primarily at industrial stakeholders that require assembly and installation systems, fastener-manufacturing technologies, and logistics and storage equipment.

40 Years Experience in Stamping Manufacturing in Taiwan

Production Specification:

Thickness: Max. 6.5mm

Material: Low/Mid/High Carbon, Stainless, Brass, Copper, Aluminum

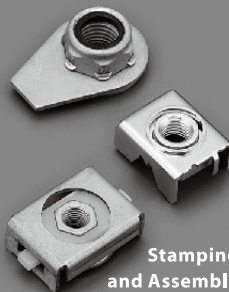

Finish: Galvanized, Nickel, GEOMET, DACROMET, Powder Coating, Phosphate, Hot Dip Galvanized, Black Oxide, Sand Blasting...

Strict Quality Control:

- ▶ Inspection on each process
- ▶ Regular inspection during forming process (IPQC)
- ▶ Traceability of material no., each process, equipment used, and personnel involved in

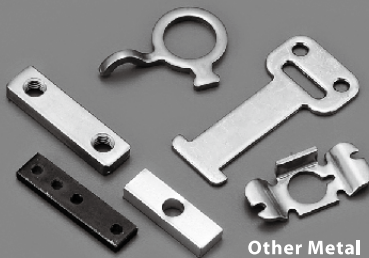

Custom Washers

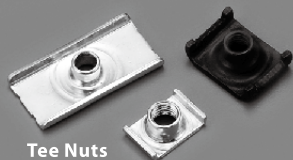

Stamping and Assembly

Tab and Round Weld Nuts

Other Metal Stampings

Tee Nuts

Tubes

M-TECH NAGOYA

4/15-17, 2020

Portmesse Nagoya

M-Tech Nagoya 2020 is Asia's leading exhibition gathering all kinds of mechanical components and processing technologies. It is held in the center of Japan's manufacturing cluster-Nagoya. Nagoya is also the area with the largest number of factories in Japan. Heavy industries such as aviation, automobile and machine tools are also flourishing here. Many world-famous Japanese enterprise headquarters are also set up here.

You can see many "Made in Japan" precision products and processing technologies at "M-Tech Nagoya" that cannot be seen elsewhere. One eye-witness is better than hundred hearsays! Come and feel the Manufacturing industry's forefront.
