

# Shou Long Precision Industrial— Providing Stamped Parts Made by Modern Equipment & with Engineered Design

碩隆精密工業股份有限公司—擁有現代化設備與設計  
思維的沖壓件製造廠

*provided by Shou Long Precision Industrial*

Established in July 1991, Shou Long Precision Industrial Co., Ltd., is a manufacturer specialized in tooling design and various kinds of stamped hardware. It has more than 90 machines to provide more than 10,000 kinds of products including retaining rings, washers, nuts, pins and customized stamped parts. With technological improvement and continuous craftsmanship accumulation in manufacturing procedures, Shou Long provides customers with better tooling development speed and productivity than competitors. Moreover, it is constantly purchasing equipment to meet customers' requirements on capacity. "Providing high quality products to customers based on our techniques is our commitment to customers and to our persistence as well," said Shou Long.

Shou Long company depends on nearly 30 years of technology and experience. From the product drawing, tooling design, tooling test, trial run, inspection, to sending samples, all processes have been completed in-house and can greatly shorten the tooling design and development time.

"In order to meet the strict quality requirements of customers, we have installed Rockwell hardness machine, Vickers hardness machine, salt spray test machine, load testing machine, mounting press, polishing machine, hydrogen embrittlement oven and other inspection equipment for customers to control product quality of hardness, corrosion resistance and performance. In addition, we are also equipped with KEYENCE automatic image measuring equipment, and many conveyor optical sorting machines to perform more accurate measurements to ensure that each size of the product meets customer requirements."

Shou Long Precision Industrial Co., Ltd. can turn your requirement to good quality products. Nearly 30 years of experience in tooling design and stamping combined with traditional attitude, modern equipment, and concept of design. We are always committed to offering superior quality, excellent manufacturing technology and competitive prices. Under the concerted efforts of all colleagues, We have been certified to ISO 9001:2015 quality management system and won "2015/2016/2018 D&B TOP 1000 SMEs Elite Award" in Taiwan, which is an honor and affirmation to us.
