

5 Must-Attend Tradeshows Represented by Fastener World in 2022-2023

匯達代理國際關鍵性扣件展會最新速報

The new year and spring have come, and the outlook for domestic and int'l markets is also promising. A few countries also opened part of their borders, however, since the end of 2021, some of these countries have again had their borders re-closed. With such a market scenario, people should be aware of global trends at all times including the latest update of important tradeshows around the world, which may greatly influence the deployment of many fastener companies. As a result, below are the 5 major tradeshows represented by Fastener World this year for your reference.

1. China's Largest Fastener Tradeshow- Fastener Expo Shanghai

As a barometer of Chinese fastener industry, Fastener Expo Shanghai, which has been consecutively held for 12 years, will again take place on June 8-10 this year at NECC (Shanghai). In the 56,000 sqm venue the Expo organizer will arrange thematic areas for fastener equipment, standard parts, stainless steel fasteners, high strength fasteners, construction fasteners, and non-standard fasteners, as well as wind power fasteners, automotive fasteners, fastener molds & dies and consumables, etc. A seminar focused on advanced fastener technology will be also given during the Expo. The Expo is now available for exhibitor registration.

2. The Largest Fastener Fair in Central America- Fastener Fair Mexico

As one of the heartlands of automotive and manufacturing industries, Mexico City will once again become the location of the 6th edition of Fastener Fair Mexico on June 22-23, 2022. At the 3,500 sqm Centro Citibanamex, industrial fixing units, construction fasteners, assembly & installation systems, fastener manufacturing technology, warehousing & distribution, factory facilities, and other related services will be exhibited. A "Club Elite Program" that gathers elite buyers together to hold business talks in anticipation of reaching higher revenues will be also arranged; a "Matchmaking Program" will be added to advise buyers and exhibitors before and during the event to maximize their time during the exhibition; a "Conference Zone" with a number of thematic speeches will be also held for all exhibitors and visitors.

INTERNATIONAL FASTENER EXPO 2021

3. The Biggest Fastener Event in Central and Eastern Europe- Fastener Poland

Fastener Poland is the largest fastener event in Central and Eastern Europe. Its exclusive sales agent in Taiwan, Fastener World Inc., has participated in this event for times for promoting superior fastener related companies to the local market. The next edition will take place at Expo Krakow on Oct. 11-12, 2022. During the show, industrial fasteners and fixings, fastener manufacturing technology, construction fasteners, assembly & installation systems, as well as warehousing/distribution/factory facilities related service will be on display. This show is a gateway for fastener companies to penetrate into the Central & Eastern European market and is now available for exhibitor registration.

FASTENER FAIR GLOBAL

4. The N. America's largest Expo- International Fastener Expo

International Fastener Expo is N. America's largest fasteners, tools, and machinery tradeshow, which finally came back with a physical event last year. On Oct. 17-19, 2022, the Expo following last year's success will take place again at Mandalay Bay, Halls E & F. According to the Expo's statistics over the past few years, about 79% of its exhibitors were fastener manufacturers/distributors, 53% were purchasing managers and buyers, and 25% were decision makers for higher-value order placements. In the edition this year, various fasteners for industrial, construction, aerospace, and automotive applications, special fasteners, tools & machines, and related service and solutions will be on display, and software and related logistics service providers will also come to exhibit, offering exhibitors and visitors more complete product portfolios and show experience. It is the most important fastener event in N. America with the longest fastener show history in the world.

5. The World's Biggest and the Most Popular Fastener Fair- Fastener Fair Global

Fastener Fair Stuttgart has been officially renamed to Fastener Fair Global and rescheduled to take place on March 21-23, 2023 at Messe Stuttgart. Before the Fair in Stuttgart, a brand new virtual Fastener Fair Connect unifying Fastener Fairs worldwide including Fastener Fair Global, Fastener Fair Italy, Fastener Fair Mexico, Fastener Fair USA, and Fastener Fair India will be held on March 11-18, 2023 to provide the first online marketplace and digital business platform as a unique networking event targeting the global fastener and fixing industry. Fastener Fair Global is the no. 1 approach to the EU and even the global fastener market.
