The 10th Ningbo Fasteners, Parts, and Manufacturing Equipment Exhibition grandly opened during April 18-20. In succession of resources and experience gained last time, it drew 338 exhibitors on 538 stands, among whom 70% were machine manufacturers and the other 30% were fasteners and parts manufacturers. In addition, U.S. NATIONAL and Belgian NEDSCHROEF came to exhibit again. Some other well-known Taiwanese machine manufacturers like JERN YAO, JIANCAI, and GUOLIAN also made their presence at the show.

The organizer said over 19.8 thousand visitors onsite registered for entry during the 2 and a half days, up 20% over the last edition. In addition, most visitors came to look for machine manufacturers while those looking for fasteners represented the second largest group. Many machine manufacturers said this is a show that they will participate every year.

Visitors were mostly local Chinese, most of whom were from fastener related industries. Not only many managers or higher levels of management from fastener companies came, but other factory directors also came for new technology. Some visitors even brought products and charts directly to inquire if there were suitable machines for them. Visitors included importing/exporting traders, agents, manufacturers, and purchasing representatives.

Near the venue several tall buildings have started to be built and the metro system in the downtown is already under construction, which is expected to be completed before the end of 2014. One of the buyers at the show said the local Chinese machine manufacturers are growing fast and have achieved stunning progress on quantity, technology, and quality. The price advantage has caused threats to Taiwanese companies to some extent, showing power unable to be ignored.

第十届宁波紧固件、零部件及制造装备展已于4月18-20日于宁波国际会议展览中心盛大展出，此次展会秉承以往的资源与经验，共吸引了338家厂商展出近538个摊位，其中机械展商约占70%以上、紧固件及零部件占30%。而国际大厂美国National及比利时Nedschroef亦再次参展，台湾此次也有知名大厂如正侑、键财、国联等一同共襄盛举。

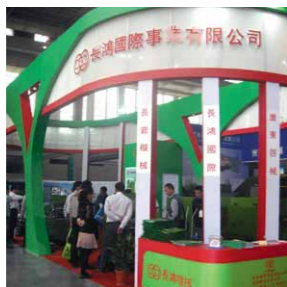

根据大会表示，此届展会2.5天展期内，共接纳国内外专业观众1.98万人次，较上届增加20%。另外，参观者大部分是来寻找机械设备的制造商，而来找寻紧固件产品的占其次，因此机械展商纷纷表示此展为每年必到的展会。

此外，参观者以中国当地人居多，几乎都为紧固件产业相关从业人员，不仅有紧固件公司经理级以上的干部人员，亦有不少厂长前来观摩技术，有些参观者甚至带着产品或设计图面直接询问是否有适用的对应机台；参观者中不乏前来挑选设备的进出口贸易商、代理商、制造商以及采购人员。

除此，展馆附近已开始增盖许多高楼大厦等新建筑，而市区也正在兴建地铁，预计将在2014年后完成。根据现场买主表示，中国当地机械制造商成长快速，不论在数量与技术、品质方面都有惊人的进步幅度，且其价格优势已对台商造成相当程度的威胁，实力不容小觑。
