China Die & Mould Industry Association (CDMIA): 8 Association Members were Presented with the "Chinese Patent Award"

The "Chinese Patent Award" set up by China National Intellectual Property Administration (CNIPA) and WIPO is a national-level award designed to recognize and encourage patent owners and inventors for their technical innovations and significant contributions to the economies and the society. In 2022, the winner list of the 23rd Chinese Patent Award has been announced. 8 CDMIA members including Giansun Mold and GDXL have been all awarded the "Chinese Patent Award."

China General Machinery Industry Association and China Machinery Industry Information Research Institute Signed Strategic Cooperation Framework Agreement

On April 13, 2022, China General Machinery Industry Association (CGMA) and China Machinery Industry Information Research Institute signed a strategic cooperation framework agreement and gave a symposium. Chairman of CGMA and Secretary of Communist Party Committee on behalf of their units signed the agreement together. According to the agreement, both sides will adhere to the principles of cooperation facilitation and serve the industry to establish a complete and deep cooperation in the field of general machinery industrial information and consultation. In addition, CGMA will take advantage of the rich resources and the think tank of China Machinery Industry Information Research Institute to begin strategic cooperation in decision making consultation.
