Premium Stainless Steel Fasteners Approved by Overseas Distributors

Combining R&D, Production & Sales; Annual Output Value: US\$10 Million

Ruiyi was established in March 2019, formerly Yuyao Zhongtong Hardware Co., Ltd., and has more than 20 years of experience in manufacturing screws and CNC machined products. Focusing on the R&D and manufacturing of stainless steel fasteners and hardware products, the company has a wide lineup, including self-drilling screws, self-tapping screws, chipboard screws, machine screws, wood screws, and various bearings. For more than a decade, the company has been a recognized second-tier supplier for the world's largest furniture brand "IKEA", and its product quality has been approved by European and American distributors.

hardness testers, tensile testers, surface roughness meters, projectors, thread gauges among others to provide clients with the best quality products. In addition, through customized services, it can also provide consulting

and total solutions to help reduce production costs, which has been unanimously praised by customers.

With years of experience in supplying to European and American distributors, Ruiyi can provide delicate packaging for small-volume products suitable for retailers or stores, meeting the high demand for delicate small packaging in emerging countries like the Middle East and other overseas regions.

The company was founded with a total investment of RMB 20 million, covering an area exceeding 33,300 square meters, and a factory area of 10,000 square meters. It is located in the Yangtze River Delta economic circle with beautiful scenery, rich resources, convenient transportation and development potential. It has a very advantageous geographic location as well as natural advantages and conditions for economic development. Through a corporate system that integrates R&D, production and sales, the annual output value reaches approximately US\$10 million. So far, the products have been exported to the U.S., Australia, the EU, South Asia and other regions.

Multi-nation Certified Products; Delicate Packaging for Distributors' Needs

Ruiyi adheres to the guideline of quality and service, using high-quality domestic and imported materials. Through a one-stop manufacturing process including cold heading, drilling point forging, threading, heat treatment, and galvanizing, it specializes in products compliant with the Chinese (GB), American (ANSI), British (BSW), German (DIN), Japanese (JIS), and international (ISO) standards. Ruiyi is a recognized manufacturer of high-quality fasteners at home and abroad.

The company has a professionally trained quality inspection team. The factory is equipped with various quality testing equipment, including

Supporting Critical Infrastructure to Create Better Global Development Together

In addition to wide application in China's critical construction projects, Ruiyi's products are exported to international markets such as Europe, America, Southeast Asia, and South Korea. Continuing forward, Ruiyi will provide users with the most excellent products, the best services, and create the best brand as the eternal goal. It will use craftsman-based management, advanced technology, and high-quality products to serve global customers, and it seeks to create a better future together! ■
