

JIAXING CHIAYO IMPORT AND EXPORT- One-Stop Screw Procurement + Customized Peripheral Services

嘉兴市嘉友进出口-
一站式螺钉采购 + 客制化周边服务

Jiaxing Chiayo Import And Export Co., Ltd. is a manufacturer and exporter of fasteners for a wide range of construction applications. Its high quality products, sophisticated technology and reliable services have been well recognized in the global fastener supply chain and are the three pillars that have enabled it to overcome challenges in the face of fierce competition over the years. Despite being one of the leading fastener manufacturers in China, Chiayo continues to enhance its strengths in various ways in order to expand into more overseas markets.

Full Integration to Create a True “One-Stop” Purchasing Experience

Chiayo offers a wide range of products to meet customers' needs for fasteners of different sizes and lengths. Its main products include various construction screws and self-produced drywall screws, chipboard screws, self-drilling screws, self-tapping screws, wood screws, roofing screws, insulation nails, expansion nails, concrete screws, window screws, Ruspert® outdoor screws, building screws, stainless steel screws, etc. It's also capable of exporting various bolts, nuts, threaded rods, washers, machine screws, expansion anchors, concrete bolts, hook screws, riggings, chains & wire ropes, nails, collated screws, etc. Common carbon steel 1022A, Q195, 10B21, SS A2, 304, etc. are all available for production. In addition to a wide range of products, Chiayo can also provide a variety of peripheral services, such as rustproof coating, galvanizing, phosphating and other special surface treatment, or provide small bags, OPP bags, blister packs, plastic boxes/buckets and other color cartons packaging as per customer request. With automated and systematic processes and professional management, Chiayo has an average monthly capacity of 3,000 tons. Its professional technical team is also

capable of R&D for customers' drawings to meet their expectations for standard products and customized ones.

“We've created a one-stop sourcing service. From raw material drawing to heading, threading, pointing, heat treating, phosphating,

electroplating, painting, packaging/palletizing/delivery, all processes are done in the factory. We also have semi-finished product quality inspection, route inspection, and final inspection for finished products, so that we can do a good job of quality control for our customers in every aspect,” according to Chiayo. In response to the current industrial trend of carbon reduction, Chiayo has also increased the use proportion of electricity generated from solar power, and simultaneously used eco-friendly clean energy to reduce energy consumption and pollution in production, demonstrating a firm attitude toward the creation of environmentally friendly processes and the fulfillment of corporate social responsibility.

Expanding into Europe and the U.S. and Developing Emerging Markets

Chiayo's products are widely used in the construction, railway and bridge sectors and are mainly exported to important markets like Poland, Germany, Italy, Spain, Brazil, USA and Mexico. In addition to consolidating and deepening the relationship with customers, Chiayo also collects information on bestsellers and new products in the market, and feeds back to customers at the first time, so that they can keep abreast of the latest market trends and opportunities! At the same time, Chiayo also actively cooperates with customers in new product modification/development/sampling/technical improvement to help them maintain their innovation and competitiveness!

“In addition to Europe and the U.S., the Middle East, North Africa and South America, where opportunities and potential exist due to growing populations and urban infrastructure projects, will be also a key focus for us,” according to Chiayo. “We know that every little screw counts, and we'll continue to do our best for customers in every industry and market.”
