

HEBEI DELONG FASTENER

Focusing on high-end Product R&D to Enter European, U.S. and Asian Supply Chains

河北德龙紧固件-专注高端产品研发 打入欧美亚供应链

Headquartered in Yongnian (Handan, China), a famous fastener distribution center, Hebei Delong Fastener Manufacturing Co., Ltd. is a well-known professional manufacturer of fasteners. Since its establishment in 2006, the company has been committed to the R&D and production of various high-end fasteners, providing excellent quality products and the most complete supporting services for the relevant needs of the industry, especially Self-Drilling Screws, Flat Washer and Spring Washers, which continue to show a high price-performance ratio that has enabled it to become the preferred choice of many customers for a long time.

Delong offers a wide range of fastening solutions to meet the diversified needs of market buyers and application trends in different industries. Supported by an average annual capacity of over 8,000 tons, its main available products include: various Self-Drilling Screws Series (hex flange head self-drilling screws, hex self-drilling screws, washer head self-drilling screws, countersunk self-drilling screws, pan head self-drilling screws) and High-Strength Spring Washers (DIN127, DIN7980, etc.), Flat Washers (DIN125, DIN9021, DIN6916, F436, etc.). In addition to the common general specifications, its professional technical team can also provide customized service for a variety of non-standard fasteners according to customers' drawings, meeting the special needs of different customers in a comprehensive manner.

Due to the excellent quality, stability and durability of its products, Delong's products not only have been widely used by customers from the construction, installation, steel structure engineering, automobile, machinery, electronics, agricultural machinery and many other industries, but also have been successfully sold into the important markets such as Europe, the U.S., Southeast Asia, and Africa, owing to its excellent and perfect service.

"We've always been adhering to the corporate philosophy of 'integrity-based, quality of survival', to provide customers with the best products and perfect after-sales service, and sincerely hope to establish a long-term close cooperative relationship with our partners and customers around the world," according to Delong.

In addition, in terms of quality control, which is the most important issue to its customers, Delong has also imported many first-class production, hi-tech-based and heat treatment equipment from Taiwan region, continuously improving and upgrading production lines and optimizing the product process to ensure that every fastener shipped from Delong meets the international standards and passes the stringent inspection of customers, further helping its customers create more added value for their brands.

"The introduction of advanced processing equipment from Taiwan region has not only greatly increased our production capacity, but also enabled us to achieve better product quality. In addition, our senior staff have been

working in the plant for more than 10 years and have accumulated rich production experience, so we are able to help our customers do a good job in quality control," according to Delong.

In order to make more customers gain the opportunity to get to know its high quality fasteners, Delong not only regularly participates in a number of professional fastener exhibitions in China (e.g. Fastener Expo Shanghai), but also arranges 2-3 overseas exhibitions every year to promote its products, hoping to further expand its sales network and open up its brand awareness in different industries through the combination of domestic and overseas sales. ■
