

Featured Exhibitors: Fastener Fair Turkey/ Int'l. Hardware Fair Cologne/ TIFS

arranged by Fastener World

The projected global economy and GDP performance is strong for the year 2018, and fastener demand in the U.S., Europe, and emerging countries is likely to grow due to the boost in domestic demand in multiple countries. We can expect vibrant business opportunities in global fastener shows this year. In light of this, in the very first publication of 2018, we are presenting a featured section for exhibitors that Fastener World will bring to upcoming shows. This section aims to pre-promote products that the exhibitors will be displaying. This time we select exhibitors to Fastener Fair Turkey and Intl. Hardware Fair Cologne, both to be held this March; we are also doing a pre-show introduction of TIFS (Taiwan International Fastener Show). During 2014 and 2016, the fasteners value that EU imported from Turkey increased from USD 180 million to USD 220 million. In recent years, the European hardware and DIY product demand has been increasing on a bigger market scale. Among European countries, Germany is the biggest hardware and DIY market with optimism for production, sales, and market development. TIFS has turned into the world's 3rd largest fastener show with over 410 exhibiting companies. These 3 critical exhibitions are the ones you cannot miss in 2018. Check out this featured section for the latest pre-show intelligence!

Fastener Fair Turkey March 01-03, 2018

Fastener Fair Turkey, the leading trade fair within the fastener and fixings industry, will be gathering industry experts together in Turkey for this dedicated event. This fourth edition will for the first time host the entire sector over three days including Saturday.

Join the industry on 1- 3 March 2018 to welcome many relevant and active buyers, wholesalers/resellers and distributors in sectors such as: automotive, furniture manufacturing, energy and power generation, marine, leisure and commercial, construction and civil engineering, communications technology, general engineering, sanitary ware and plumbing, electronic and electrical goods, aerospace, HVAC manufacture and installation.

98% of stand space in the first hall has already been sold. Additionally, the second hall is now open to new companies keen to guarantee their presence. More names have been added to the list of exhibitors for Fastener Fair Turkey 2018; while many companies who make a consistent appearance at this event have already booked their stand space. Many others are participating for the first time.

Exhibitors in Focus

Taiwan RDP Ind Co., Ltd. (Booth: 1686)

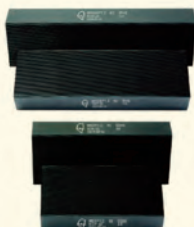

Taiwan Rolling Die Plate (RDP) was established in 1981. It is one of the most professional manufacturer in the field of screw dies and a wide spectrum of thread rolling dies with over 38 years of successful management and operation. Taiwan RDP has developed a remarkable expertise and pioneered in general products for application in diverse industries.

Highlighted Product: Thread Rolling Die

Features: Having high quality materials and techniques to offer customers thread rolling dies for a variety of needs.

Purpose of exhibiting: To be able to understand the Turkish market and develop customers.

E-mail: taiwan_rdp@yahoo.com.tw;
frances_taiyardp@163.com

Fastener World Inc. (Booth: 1780)

Fastener World Inc, is a professional magazine publisher for fasteners, hardware, and industrial components industries. Dedicated to relevant industries for more than 30 years, Fastener World continues to play a vital role in helping industry professionals increase their brand awareness, strengthen presence in the global market, and establish partnership with int'l customers.

Highlighted products: *Fastener World Magazine, China Fastener World Magazine, Hardware & Fastener Components Magazine, Emerging Fastener Markets Magazine, and Fastener World Europe Edition.*

Website: www.fastener-world.com.tw / Email: foreign@fastener-world.com.tw

Unipack Equipment Co., Ltd. (Booth: 1736)

UNIPACK is a leading manufacturer and exporter of packaging system and automatic logistics system. We offer customized machines to all clients. The main purpose is saving time, labor and increasing productivity in work. We integrate exclusive and patented features into the machines and apply PLC control and user-friendly machine interface making the machines more user-friendly and reliable. With experience and professional skills, our machines are not only sold in the domestic market but also exported worldwide.

Highlighted Products:

Auto box/carton/plastic bag/KLT packaging system, whole plant logistics system, and automatic warehouse system.

Website: www.unipacks.com.tw

E-mail: uni.pack@msa.hinet.net

Cham Hung Enterprise Co., Ltd. (Booth: 1682)

Cham Hung Enterprise is a worldwide professional mould and die manufacturer which offers a wide range of related tools and products in all materials.

Highlighted Products:

- 1. Tungsten carbide products:** tungsten carbide, punches, inserts, cutting blades and cutting dies for bolt & nut forming parts & tools
- 2. Related products:** Alloy Steel Tools, (Hex) Punch Pins, Die Pins, Trimming Dies, Fingers, K.O. Pins, Feeding Rollers, Rolling Dies, Springs, Rivets, etc.

Features: Our products are widely used in single and multi-station formers to manufacture screws, nuts automobile parts and other related parts.

Purpose of Exhibiting: We hope to gain more valuable clients with high potentials and increase our company's exposure at the exhibition. We believe Taiwan companies will be seen and verified by their professional skills and service.

Pingood Enterprise Co., Ltd. (Booth: 1484)

Since 1982, Pingood has been specialized in mechanical plastic injection molded mini-parts and custom parts as well. It is ISO 9001, ISO14001 qualified and has 3 plants, 1 in Taiwan and 2 in China. It has more than 15,000 SKUs standard ready parts.

Highlighted Products:

Plastic fastener and hardware: nylon screw, nut, washer, snap rivet, mounting button, spacer support, wire clip/clamp/cable management.

Features:

Our in-house streamlined total solutions from toolings to mass production offer cost-effective products and reduce assembly cost. Green procurement of sources: Meet RoHS, Reach, Halogen-free. Environmentally friendly (Energy saving by using solar energy). Facilities (in-house tool shop, injection line, automated processing and packing dept.)

Website: www.pingood.com.tw / E-mail: sales@pingood.com.tw

Transway Enterprise Co., Ltd. (Booth: 1684)

Transway tools is a manufacturer in Taiwan specialized in producing screwdriver bits for industries and power bits for automotive industries and socket wrench sets. Transway uses best quality S2 and chrome vanadium steel from Taiwan government's steel company and the best machinery to produce bits to ensure best quality. Any other special bits are also welcome.

Highlighted Products:

Screwdriver Bits, Socket Wrench Set and Other Hand Tools

Tung Fang Accuracy Co., Ltd. (Booth: 1880)

Tung Fang Accuracy Co., Ltd. was established in 1995, specializing in producing and processing all kinds of punches, dies and spare parts. Tung Fang holds "Continuous R&D to Reach Excelsior" as its principle and service with reliable and credible attitude for many years.

Highlighted Products:

Punches, dies and spare parts

Features: Tung Fang Accuracy is specialized in manufacturing all kinds of punches and dies for over 20 years. These punches and dies are used for screw and nuts. We provide high quality and competitive prices. You can also choose from TiN, TiCN, TiAlCrN coatings for longer tool life.

Purpose of Exhibiting: To find more potential customers in export markets.

Website: www.punch-die.com / E-mail: tfa_6970693@yahoo.com.tw

Ray Fu Enterprise Co., Ltd. (Booth: 1335)

RAY FU, founded in 2000, is a professional exporter of all kinds of fasteners in Taiwan. Ray Fu specializes in construction products and automotive industry. Aiming at providing superior quality, Ray Fu is ISO 9001, ISO 14001, TS 16949, TAF, EN14592 and DIN EN 14566 certified to meet any customer demands.

Highlighted Products:

Self-drilling screws, drywall screws, chipboard screws, self-tapping screws, collated screws, window screws, concrete screws, decking screws, roofing screws, machine screws, automotive screws, bolts, nuts, and washers.

Features: Ray Fu is recognized for integrated production capability at its steel wire factory, which is equipped with a wire rod warehouse, spheroidizing annealing furnace, pickling surface equipment, wire drawing machines, and screw makers. With its own supply of raw materials, Ray Fu works with its customers to roll out high quality customized products.

Purpose of Exhibiting: Ray Fu travels around the world to boost global exposure and form partnership with worldwide businesses. Ray Fu believes that constant pursuit of excellence and continuous improvement are the key to success in meeting world standards.

Website: www.ray-fu.com / E-mail: export@ray-fu.com

Features: Best quality products made in Taiwan. S2 screwdriver bits and chrome vanadium steel socket wrenches and hand tools.

Purpose of Exhibiting: Looking for customers & partners in Turkey.

E-mail: transwaytools@yahoo.com.tw

Dahbin Enterprise Co., Ltd. (Booth: 1734)

Dahbin Enterprise Co., Ltd was established in 1987. We are a professional manufacturer of punches located in Kaohsiung, Taiwan. We have been in this industry for over three decades. Dahbin is dedicated to fulfilling all customer needs and provide maximum satisfaction.

Highlighted Products: *Punches and Customized Products.*

Features: We use the latest technologies such as computer lathes and CNC automatic grinding machines to manufacture various types of Punch, Insert, Stripper, Punch Pin, etc. We are specialized in customized products. We are able to customize all sorts of punch upon your request.

Purpose of Exhibiting: We look forward to meeting all the elite companies at the exhibition and to developing and maintaining a long-term relationship with all new customers.

Chan Change Machinery Co., Ltd. (Booth: 1834)

Chan Change Machinery Co., LTD was founded in 1990 by our chairman Mr. Ching-Hung Ko and his co-founder Mr. Te-I Li. Chan Change is the manufacturer of the popular screw heading machines. In addition to that, we also offer service for customized screw heading machines. Our Screw Heading Machines are known for its quality, precision, and durability. We have been quite successful in earning customers' confidence and trust after all these years we have been devoting considerable time and cost to improve our product lines. Your prompt reply would be highly appreciated. We hope to serve you in no time.

Highlighted Product: *Screw heading machine*

Features:

Chan Change developed Screw Heading Machine series with dimension capability 3~25mm, length 25~300mm. All screw heading machines have been developed for years and tested to verify our improvement. The cutter of cut-off system (HH-2440DL model or higher level) adapts fully surround cut that ensures the cross section edge is clean and perpendicular. Cutter slider is centered with cutter rod, and further by accurate design, the cutter slider rod merges with the crank and fixes at the main gear without excessive spacing. The acme of K.O. is also acme of cutter slider, and it will result in a perfect and stable cutting process. Regarding adjustment, the orientation of cutting plate doesn't require cushion. It is simple and easy to use.

Purpose of Exhibiting:

Having duly examined your situation, we are confident that our proposed services will effectively address your needs. Our unique ability to engineer customized technical matters and our successful record in exporting Screw Heading Machines worldwide and domestic market make us an invaluable partner in the fastener/screw market. We look forward to forming a mutually rewarding relationship with your company.

Website: www.chanchange.com.tw / E-mail: zh.corpor@gmail.com

Homn Reen Enterprise Co., Ltd. (Booth: 1482)

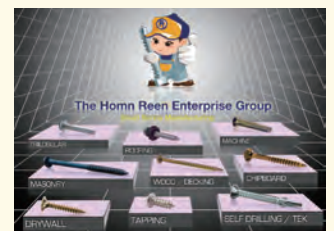

Homn Reen is a large-scale professional small screw manufacturer established in 1985. We are able to provide a variety of specialty and standard screws, as well as screws manufactured to customer's specifications. We demand stable quality, encourage innovation, and deliver prompt customer day-to-day service. In addition, our company has been awarded the ISO 9001 certificate. Homn Reen has established two fully integrated factories. The Taiwan-based factory is 20,000 square meters, and the Vietnam-based factory is 100,000 square meters. Our products are sold domestically and internationally, and we ship 21,000 metric tons in average annually. Homn Reen always exceeds the expectation of our customers in terms of quality and advancement. This has helped our company to become the leading small screw manufacturer in Taiwan.

Highlighted Products:

Self drilling screws, trilobular thread screws, furniture screws, bi-metal screws, collated screws
