

# FASTENER FAIR MEXICO

September 5-7, 2024  
Expo Guadalajara

## TAIWAN EXHIBITORS

## Fastener Fair Mexico— The Most Important Event in the Fastening and Screw Industry in Latin America

Fastener Fair Mexico is Mexico's main exhibition dedicated to the entire supply chain: distributors, hardware stores, mechanical and industrial design engineers, buyers and manufacturers from different sectors looking for industrial fastening products and solutions.

It attracts exhibitors from the local Mexican fastener related industry, as well as from countries including Taiwan, Israel, China, USA, etc. to present and showcase their latest and innovative fastening, fixing, and assembling products, solutions, and services, which include screws, nuts, bolts, rivets, washers, anchors, fastening tools, molds & dies, machinery, and other peripherals & accessories.

It not only draws the attention of professional fastener industry players to visit and seek further collaboration, but also sees some meaningful and significant visits from other industrial key men and decision makers from the field of hardware and others showing high interest in purchasing or collaborating with each other. In addition to importers, distributors and retailers from Mexico, many potential buyers from neighboring Latin American countries will be in attendance looking for sourcing and collaboration opportunities.

It is the best option to generate high-quality leads and connect with buyers in the short term, obtain brand presence with segmented profiles and reconnect with current clients, strengthening business relationships.
