

FASTENER FAIR MEXICO

September 5-7, 2024
Expo Guadalajara

Fastener Fair Mexico— The Most Important Event in the Fastening and Screw Industry in Latin America

Fastener Fair Mexico is Mexico's main exhibition dedicated to the entire supply chain: distributors, hardware stores, mechanical and industrial design engineers, buyers and manufacturers from different sectors looking for industrial fastening products and solutions.

It attracts exhibitors from the local Mexican fastener related industry, as well as from countries including Taiwan, Israel, China, USA, etc. to present and showcase their latest and innovative fastening, fixing, and assembling products, solutions, and services, which include screws, nuts, bolts, rivets, washers, anchors, fastening tools, molds & dies, machinery, and other peripherals & accessories.

It not only draws the attention of professional fastener industry players to visit and seek further collaboration, but also sees some meaningful and significant visits from other industrial key men and decision makers from the field of hardware and others showing high interest in purchasing or collaborating with each other. In addition to importers, distributors and retailers from Mexico, many potential buyers from neighboring Latin American countries will be in attendance looking for sourcing and collaboration opportunities.

It is the best option to generate high-quality leads and connect with buyers in the short term, obtain brand presence with segmented profiles and reconnect with current clients, strengthening business relationships.

FASTENER FAIR INDIA

July 26-28, 2024
Pragati Maidan, New Delhi

Discover the Future of Fastener and Fixing Technology at Fastener Fair India 2024

Fastener Fair India 2024, the premier international exhibition dedicated to fastener and fixing technology, is set to take place from July 26th to 28th, 2024, at Pragati Maidan, New Delhi.

This highly anticipated event offers a unique opportunity for industry professionals to connect, collaborate, and stay abreast of the latest developments in the fastener and fixing industry. With over 10,000+ industry peers and 200+ leading exhibitors expected to attend, Fastener Fair India promises to be an unparalleled networking platform.

Attendees can look forward to gaining profound insights into current global trends, meeting decision-makers who are shaping the growth of the fastener fair industry in India and participating in thought-provoking networking sessions. Additionally, the exhibition will showcase the latest technological innovations in the fastener and fixing industry, providing attendees with the opportunity to exchange groundbreaking ideas and technologies in a conducive environment.

"We are thrilled to bring this year Fastener Fair India back to New Delhi," said Vicky Kumar, Project Director at RX India. "This event serves as a catalyst for driving innovation and collaboration within the fastener and fixing industry, and we look forward to welcoming industry professionals from around the world."

Don't miss out on the chance to keep abreast of the latest technological innovations in the fastener and fixing industry, and exchange groundbreaking ideas and technologies at Fastener Fair India 2024!

YIH TIENG MACHINERY INDUSTRIAL CO., LTD.
<https://yihtieng.com>

YIH TIENG Machinery was established on May. 1st 1989 in Taiwan. We start from maintenance so that we can understand customer needs and how to fix the machine for best using experience. Because the Heading Part is the first step for producing fasteners, we also keep that in our mind for making every machine for our customers. In these 35 years we keep improving our quality with our customers and are proud of letting them make the best profit by our machines.

Where the Screw Is, Where YIH TIENG Is.
 Made in TAIWAN ONLY.

VME 2024 is coming back with the new theme: SUSTAINOVATION - THE PATH TO MANUFACTURING EFFICIENCY

VME 2024 - THE LEADING EXHIBITION EVENT ON MANUFACTURING TECHNOLOGY SOLUTIONS, ADVANCED MACHINERY, AND SUPPORTING INDUSTRY IN VIETNAM

VME 2024 - a magnificent exhibition event, gathering over 200 machinery and equipment brands from more than 20 countries worldwide. With the participation of over 10,000 industrial professionals in manufacturing and supporting industries sectors, this will be an ideal place for manufacturers, suppliers, and customers to connect, exchange, and seek new solutions and development opportunities for their business community.

In the context of globalization, the opening of international markets has created a competitive and constantly changing business environment, posing new challenges for businesses in all areas of manufacturing, including:

- Intense competition from competitors both domestically and internationally, requiring businesses to continuously improve and innovate to avoid falling behind and losing market share.
- Production and labor costs increased, affecting the profits of businesses.
- Pressure to minimize environmental impact and use resources sustainably for long-term business development.
- Scarcity of skilled and highly specialized labor force.
- Seeking and retaining customers, developing effective marketing and sales strategies.
- Organizational capacity for production management and technical technology is still limited.
- The gap between the requirements of multinational corporations and the capacity of domestic manufacturing businesses to meet them is significant and has not been optimized.

These reasons may significantly affect businesses. Therefore, participating in VME 2024, businesses will find many new solutions to overcome these challenges, such as:

- Explore hundreds of leading brands from around the world, showcasing top products, machinery, and technologies in the industry.
- Connect with thousands of experts, manufacturers, and potential partners, creating new cooperation opportunities and expanding your business network.

- Participate in seminars and in-depth training programs to update knowledge and skills from top experts.
- Learn about automation solutions, cost-effective cost management, and the latest marketing strategies to increase productivity and profitability for your business.
- Promote your brand and increase sales by introducing your products and services to thousands of potential customers.

VME 2024 is not only a regular exhibition but also a platform for connection and communication, helping manufacturers, investors, and supporting industry businesses at home and abroad find solutions to the challenges in business operations, especially in the face of market fluctuations.

This year, VME also co-located with the Vietnam's Leading Exhibition on Material Handling Technology & Solutions for Downstream Process Optimization (ViMAT) and the Vietnam's leading Exhibition on the Fastener and Fixing Industry (Fastener Fair Pavilion Vietnam).
