INFINIX PRECISION CORP.

www.infinix.com.tw
 tooling@infinix.com.tw

infinix precision corp. is dedicated to serving our customers with a full range of forming tools that include punches, dies, pins, cutters and fingers. Our 2000 m² climate-controlled facility with 50 plus employees is located in southern Taiwan. In order to overturn the conventional manufacturing and management process, we invested in the most advanced facilities and software on site, such as the 5-axis CNC machine from MAZAK Japan and the Wire Cutting EDM from SEIBU Japan, combined with the advanced CAD/CAM software such as NX CAD/CAM, SMARTCAM and SOLIDWORK.

Infinix is always outward looking. To enhance efficiency, we created our own Enterprise Resource Planning (ERP) system from the start. We ensure greater control over the manufacturing process and promise significant cost savings to be made by streamlining each step of the process with the tailor-made ERP system. Our efficiency in getting the tool right the first time puts our customers into production faster.

Infinix is more than a supplier of tools. Our expertise and attention to detail ensure you receive a tool that will hold up and reliably produce parts throughout the life of the tool. Besides offering high precision custom tools, we are eager to work with our customers on professional consultation such as material suggestions and adjustment on trial feedback.

FASTENER FAIR INDIA

Dates: **May 08-10, 2025**

Venue: **Bombay Exhibition Centre, Mumbai**

Expanding Horizons with India Hardware

Building on the success of its 2024 edition in New Delhi, Fastener Fair India continues to solidify its position as the premier networking platform for the fastening and fixing industry. The 2024 edition delivered outstanding opportunities for distributors, suppliers, engineers, and industry professionals, reflecting the strong growth of key sectors such as automotive, construction, and manufacturing in India.

As the industry gears up for another dynamic edition, Fastener Fair India 2025 is set to take place from 8-10 May 2025 at the Bombay Exhibition Centre, Mumbai, India. This year's event promises to be bigger and better with the introduction of a brand-new segment – India Hardware.

What's New in This Edition?

Unveiling India Hardware – Fastener Fair India 2025 proudly introduces India Hardware, a dedicated segment showcasing India's flourishing hardware manufacturing industry. Powered by the Make in India initiative, this segment will highlight cutting-edge tools, machinery, and technological advancements, reinforcing India's position as a global manufacturing hub. Visitors can expect to explore the latest innovations, network with key players, and stay at the forefront of industry developments.

CHUM YUAN CO., LTD.

www.chumyuan.com
info@chumyuan.com.tw

Chum Yuan Co., Ltd. (CYC), established in 1980 in Taiwan, is a service-oriented leader with over 45 years of expertise in industrial machinery, forming tools, and related products. With a strong global presence across Southeast Asia, the Americas, the Middle East, and India, CYC offers comprehensive solutions backed by a network of over 400 suppliers. Under its brand MachEx, CYC operates a specialized used machine exchange platform, streamlining the trading process for fastener, forging, and machine tool industries, particularly for overseas buyers. Additionally, CYC exclusively offers Taiwan's first High-Speed Bolt Pointing Machine (HC-P14), designed with European standards. This machine excels in speed, flexibility, and versatility, offering pointing, chamfering, facing, and drilling operations for bolts ranging from 3mm to 15mm in diameter. With quick tool-change capability, it caters to both mass production and varied small-batch needs.

Why You Can't Miss It

For Visitors: Gain direct access to a diverse range of fastening and hardware solutions, meet top suppliers, and experience live product demonstrations. Stay ahead of industry trends and source high-quality products from leading manufacturers.

For Exhibitors: Engage with decision-makers, buyers, and distributors actively seeking new solutions. Showcase your latest innovations, expand your brand presence, and generate high-value business leads.

Exclusive Networking Opportunities: Build valuable connections with industry leaders, suppliers, and potential partners across various sectors, including construction, automotive, aerospace, and manufacturing.

Live Demonstrations & Product Launches: Witness the latest advancements firsthand through interactive showcases and live product demonstrations from top brands in the industry.

Stay Ahead of the Competition: Gain insights into emerging market trends, technological advancements, and new business opportunities shaping the fastener and hardware sector.

A Must-Attend Event for Industry Professionals

Fastener Fair India 2025 is the ultimate platform to explore innovations, forge new business partnerships, and stay updated on industry trends. Whether you are a visitor looking to source high-quality products or an exhibitor aiming to showcase groundbreaking solutions, this event is your gateway to unparalleled opportunities in the fastener and hardware industry.

Join us at Fastener Fair India 2025 and be a part of the future of fastening and hardware technology! ■
