The EU imported a total of about 2.03 million tons of fasteners from the world in 2022, with China and Taiwan as the main import sources, accounting for more than 60% of the total. In addition, Turkey, Vietnam and India were also very important import partners for the EU, with individual imports of more than 100,000 tons. In 2022, only the UK in the top 10 sources of imports showed a slight decline, while all the other sources were on a growing trend. In terms of value, the EU imported a total of about EUR8.06 billion from the world in 2022, up 25.8% from EUR5.98 billion in 2021, with the top 10 sources showing a significant year-on-year growth. The data also shows that the EU is highly dependent on the supply chain of fasteners from Asia.

Exports of fasteners from the EU grew from 569,000 tons in 2020 to 632,000 tons in 2021, and then down to 594,000 tons in 2022. The U.S., China and the U.K. ranked respectively as its largest to third largest export destinations, with the three countries altogether accounting for more than 40% of the total. Exports to Switzerland, Mexico, Turkey and Brazil also reached at least 30,000 tons each. However, the data show a decreasing trend in the volumes of fasteners exported from the EU to the US, China and the UK in 2022 on a year-on-year basis, while the portions exported to Switzerland, Mexico, Turkey, Brazil, India and Morocco all showed growth. In terms of value, the EU's fastener exports grew from 4.31 billion euros in 2021 to 5.35 billion euros in 2022, with all of the top 10 export destinations showing growth in 2022 except for China, which showed a year-over-year decrease. □
